Spirituality-in-Perspective Dr Jerry Lacony Killingsworth

This book is the author's way of looking at human spirituality-as-reality from a number of angles in an effort to place spirituality in perspective. The perspective will be that of the philosophical-intellectual tradition in Western civilization, and the review of the religious debate. A closer look at the new trend toward spirituality as viewed by Western science was made. Other views included the more recent "spiritual brain" in considerations of science and religion, as well as reality and beyond. A complete view of sacred texts-&-religion was shown, and spiritual naturalism concluded the discussion.
