*From the intellectual leader of the Republican party, an unvarnished look into the state of the conservative movement today and a clear plan for what needs to be done to save the American Idea.*

THE WAY FORWARD challenges conventional thinking, outlines his political vision for 2014 and beyond, and shows how essential conservatism is for the future of our nation.

Beginning with a careful analysis of the 2012 election--including a look at the challenge the GOP had in reaching a majority of voters and the prevalence of identity politics--Ryan examines the state of the Republican party and dissects its challenges going forward.

THE WAY FORWARD also offers a detailed critique of not only President Obama but of the progressive movement as a whole--its genesis, its underlying beliefs and philosophies, and how its policies are steering the country to certain ruin.

Culminating in a plan for the future, THE WAY FORWARD argues that the Republican Party is and must remain a conservative party, emphasizing conservatism in a way that demonstrates how it can modernize and appeal to both our deepest concerns and highest ideals.
