**Fun With Plants: How to Make And Care For Miniature Gardens And Terrariums** Luccia LeMay, Paul LeMay

Terrariums have recently made a return to popularity. The making of miniature gardens, a themed based landscape has swept the world as a most favorite hobby, with fairy gardens especially. However, with a vivid imagination one can quickly become addicted to the many themes possible. The beauty of all this is that No green thumb is required. This is a How To Book, that will take you step by step in the making and caring for terrariums and miniature gardens. You are given a full explanation and instructions on open and closed terrariums including tropical and air plant terrariums. In addition you will learn the important truth about desert terrariums and what they fail to tell you. How to use and care for Cactus and Succulents. A suggested listing of plants suitable for terrariums are listed by their lighting needs. Fungus and mold remedies are explained and use of natural remedies. There is a special chapter all about the fun air plant and their many varieties. You will learn about their growth cycles, flowering, and the production of babies and how to divide them from the mother plant. The chapter also includes instructions on how to care for them. Miniature gardens are discussed, types of containers and care. A special chapter is included on how to make money with plants and flowers, Instructions on starting your own plant business, What plants to grow and how to sell them. Includes information on record keeping and business basics. Everything to get you up and running.

Terrariums, miniature gardens and air plants are a fun and easy way to create and enjoy a piece of nature's art. This book is full of How To information based on the authors experience. Everything is in here to assure your success. Remember Fun with Plants, No green thumb required
