Global Health Nursing: Building and Sustaining Partnerships Michele Upvall PhD RN CRNP, Jeanne Leffers PhD RN

Primarily, the book covers different global health partnerships and initiatives, focusing on what works/what doesn't work and providing guidance for future partnerships. This is ideal for readers who focus their work in this area."--**Doody's Medical Reviews**

This innovative text for graduate and undergraduate nursing students fills a void in global health nursing literature by providing essential tools and strategies for building and sustaining productive international partnerships. Based on the premise that partnership is paramount for sustainable outcomes, the book demonstrates how nurses can build sustainable health programs that will improve health outcomes worldwide. Written by two highly experienced global nurses, the book offers expert guidance gained from many years of successful involvement in international collaboration that is supported by detailed real-life examples. It will be of particular interest to nurse educators who undertake projects with their students to ensure that both students and host partners are able to meet their collaborative goals. Additionally, the text provides information that will help nurse educators to perpetuate a successful educational program even after they depart or funding ends.

Case studies from many different perspectives demonstrate positive change effected by nurses working across international boundaries and within their own countries. The text builds on the Conceptual Framework for Partnership and Sustainability in Global Health Nursing developed by Leffers and Mitchell (2010). Additionally, the book reflects the focus on global health competence for nurses in the future (IOM, 2011) as well as that of the American Academy's of Nursing's recently established committee on Global Health.

Key Features:

- Provides expert, essential guidance for nurses who work internationally to build successful partnerships for sustainable programs
- Recommends global solutions to the challenges facing international nursing collaboration
- Includes detailed case studies of successful collaboration
- Based on the Conceptual Framework for Partnership and Sustainability in Global Health Nursing
- Chapters end with reflective questions challenging the reader to apply "lessons learned."
