Have You Started To Trade Penny Stocks But Keep Losing Money Again and Again?

Have You Tried One Of Those Get Rich Quick Trading DVDs, Only To Lose Your Shirt The Next Day?

Are You Finally Ready To Get More Serious And Begin Trading Penny Stocks The Right Way?

Do You Want To Learn A System That Actually Works So You Can Be Confident In Every Trade?

If You Realize That When Traded Properly, Penny Stocks Could Allow You Reap Near Constant Profits, Keep Reading, Because I'm Willing To Show You Exactly How It Can Be Done...

95% of people lose money in the stock market but in the penny stock market, 99% end up losing! The reason this occurs is because most treat penny stocks like the lottery and choose to gamble by investing long term rather than trading them short term. Most people invest a few hundred into a penny stock like one that claims they found a cure for cancer. The reason they do this is because they think this \$.05 dream stock will rise to \$100 and turn them into millionaires. The only problem is, they couldn't be more wrong, and they're going to take it on the chin – hard.

You should realize that the market is a zero sum game where one person wins and one loses on every trade. Unfortunately few people consider who is on the other end of their trade and just pray they get lucky, and think profits will appear out of know where! I am not going to lie to you like so-called "gurus" & tell you that you can turn \$100 dollars into a million in a short period of time, since this is nearly impossible even for professional traders. With that said, when I got profitable in 2004 I made \$5000 a month and started to make a lot more as my trading account grew. Today I often make more in sometimes minutes than most people make in a whole month or even a whole year! Seriously...

Many penny stocks have a great idea for a product and what looks like a great "story". From their professionally designed websites, online profiles, and PR campaigns, they look like great companies. Despite this fact, a majority of these OTCBB stocks, are fraudulent! Believe it or not, these are "shell corporations" with just one employee, who's address is actually an abandoned warehouse or a UPS store mail box! Miraculously these "exploratory stage" companies often increase their stock price by 500% and I will show you how to profit off of their dirty game.

This is a unique course which explains the methodology that I use to extract consistent profits! I guarantee this is the most comprehensive program that you will find because it includes step-by-step instructions and an easy-to-follow guide which will show exactly how I make thousands. If you want to learn from a real trader, rather than one of these many con men online that claim they make millions trading, but instead make money selling their worthless DVD's and useless trade alert services, this is for you.

In 2002 I started trading and could never get a break. I spent tons on courses and alert services, but kept losing. After two long years of losses something "clicked" and I became profitable! I spent thousands of

hours perfecting my process and twelve months writing this book. I've read 373 books on trading and most were useless. I can guarantee you will find this course beneficial because it will show you a proven method to profit! I am sure you are thinking if you have a profitable system, then why would you share it? The truth is I have learned the stock market does not pay penny stocks traders daily, but instead pays out randomly. Therefore I don't know when the high probability setups will arise so I am willing to share my methods.

Note this course is priced higher than most books on Amazon but there is one simple reason. As more people start utilizing a profitable trading system, it's effectiveness can decrease and by no means am I interested in losing my trading edge. I am limiting access to only those people who are dedicated about learning to trade.
