Per the author: A therapy guide for parents and professionals who work with young children with social and communication delays. This 185 page manual is filled with simple routines, songs, and games designed to inspire adults to interact with children in ways to motivate them to play WITH you. It's a book of ideas to get you started so that you'll know what to do when you play with a child who has difficulty staying with you and paying attention or with a child who seems bored and aloof most of the time. Chapter 1 is an introduction for parents explaining why social interaction is the foundation for language development. Chapter 2 is Easiest Beginner Routines and includes step-by-step instructions for 22 fun play routines. Young children with social and language delays best learn how to interact with others during the structure of a "game." In Chapter 3 Early Toys you'll find ideas for play with children who may not be interested in toys. Most of these games are with toys you probably have at home. Some aren't "toys" at all, but household items you likely already own. These are my go-to-games when I need to get a child's attention in the beginning sessions when he's not "with" me yet. At the end of the chapter I list toys I use every day in speech therapy. Chapter 4 contains words and instructions for 33 Fingerplays and Songs I use in play with toddlers and young children. As in the previous chapters you'll find a section for Child's Goals and ways to expand the game into your daily lives. Chapter 5 covers Solutions for Problems during Play, you'll find suggestions for new things to try when what you're doing isn't working. Chapter 6 includes my list of references and recommended reading for parents. Regular price is \$48.00 plus \$8 s/h.
