La Biblioteca Hiperautomatizada: Un paradigma emergente de automatización de bibliotecas (Spanish Edition) Jose Gregorio Silva

Las bibliotecas de todo el mundo, dirigidas por bibliotecarios visionarios, han estado recorriendo un camino de transformaciones crecientes habilitadas por las tecnologías de la información y orientadas hacia lo que el autor llama hiperbibliotecas o bibliotecas hiperenlazadas e hiperautomatizadas. Precisamente este libro aborda el fenómeno de la hiperautomatización, de una forma breve pero bastante completa e ilustrada. Se trata de una referencia importante para bibliotecólogos, bibliotecarios y todos los que de una u otra forma encuentran a las bibliotecas en los caminos por donde transitan en su quehacer.
