*Our Children - Our Responsibilities* walks the reader through the social, psychological and theological dynamics and rationale for a step-by-step whole systems change model designed to address issues plaguing the African American community and youth gravitating to gang environments. Drawing upon an expansive audience of scholars and practitioners to support its propositions, the book moves away from talking about the problems to conveying a well designed multi-disciplinary and detailed change strategy. It challenges traditional beliefs, praxes and strategies that typically start with a focus on youth as the central point and boldly addresses the multitude of inter-related issues that plague the African American community. The model is expanded to a global context, which is a critical perspective since every continent has a gang problem and/or community-based issues that give rise to youth gravitating to gangs.
