Research Methods in Information Alison Jane Pickard

This unique new handbook guides those in the library, information, and communications fields through the options and possibilities open to them under the heading "research" - everything from discovering and reporting the use and value of a particular service to designing a project to secure tenure, or even embarking on a dissertation. Coverage includes developing and justifying research questions, establishing aims and objectives, creating a proposal, determining methods and strategies, data collection, analysis, presenting results, and more. Each chapter features examples and exercises that reinforce the text and guidelines that keep readers on track.
