Hongkongitis is ... an incurable affliction that causes one to secretly love Hong Kong while complaining loudly about it. While everyone else in Hong Kong was out doing real jobs, writer and cartoonist Larry Feign put together this collection of true but ridiculous facts, observations and stupid scientific theories about the most hyperventilating, oddly loveable city on earth. Read irrefutable proof that ... Hong Kong is actually located in France; There's a scientific explanation for why people shout "Wah!" every time a flashbulb goes off; Chinglish is the New World Language; The Vatican should relocate to Kwai Chung; A baby's IQ determines the size of her future apartment; Every person in the world is Chinese; Only psychotics should visit Hong Kong doctors... No one is immune from Hongkongitis!
