Eyes Open: Looking for the Twelve - Blueprint for a New World Jeanne White Eagle

“In Eyes Open, author Jeanne White Eagle depicts a vision for a world that works for everyone, a world where transformation, an enlightened population and paradigm-popping realities are the norm rather than the exception. Her story may challenge some of your assumptions, but then aren't assumptions something we should challenge every once in a while anyway? After all, hasn't most of our progress as a species been largely due to somebody challenging some commonly-held assumption, like humans can never fly, or land on the moon, or....well, we you get my drift.” - John Renesch, futurist, author: Getting to the Better Future and The Great Growing Up
