Resource Ecology: Spatial and Temporal Dynamics of Foraging (Wageningen UR Frontis Series)

Resource Ecology: Spatial and Temporal Dynamics of Foraging (Wageningen UR Frontis Series)

This multi-author book deals with 'resource ecology', which is the ecology of trophic interactions between consumers and their resources. All the chapters were subjected to intense group discussions; comments and critiques were subsequently used for writing new versions, which were peer-reviewed. Each chapter is followed by a comment. This makes the book ideal for teaching and course work, because it highlights the fact that ecology is a living and active research field.
